| Geographic Region | FY 2022 Net Revenue ($M) | FY 2022 Operating Income ($M) |
|---|---|---|
| United States | $ 7,890 | $ 412 |
| China & Taiwan | $ 9,120 | $ 530 |

AMD TECHNICAL AND OPERATIONAL ARCHITECTURE

The operating model connects CPU and GPU roadmaps with chiplet packaging, software enablement, manufacturing partners, and data center platform validation. Engineering release gates coordinate silicon quality, firmware readiness, supply allocation, and customer qualification.

AMD RISK GOVERNANCE

Management reviews market concentration, semiconductor supply continuity, export controls, cybersecurity, intellectual property, and product execution risks through quarterly controls. Board committees receive escalation reports, mitigation owners, and residual-risk assessments.
